SEVENTH GRADE

The seventh grade students enjoyed their new privileges in athletics and at social events. The students saw "A Christmas Carol" at IRT. In English they wrote materials for a folklore booklet. In science they dissected earthworms and frogs. They concentrated on the development of the eastern hemisphere in social studies. They pursued their interests in exploratory and fine arts classes.

SIXTH GRADE

Bursting with energy for the many school activities, the sixth grade students try their hands at some new programs. Getting involved with track and field day, working with the video tape machine, creating corn husk dolls for the holidays and sharing in the fun with classmates are some of the challenges offered to them.

Sixth graders show their spirit at a basketball pep session.
